

THE CENTRAL RECORD.

LANCASTER, KY., THURSDAY AFTERNOON, FEBRUARY 16, 1922.

THIRTY SECOND YEAR

NUMBER 48.

Play Fair With The People (Editorial)

The County Judge of Garrard County, has issued a call for a mass meeting of the tax payers of the County, to assemble at the Court House next Saturday afternoon, to discuss the advisability of selling a portion of the bonds, which were authorized by a vote of the people in 1920. We think the tax-payers of the county should respond to this invitation of Judge Treadway and attend the meeting. The editor of this paper took an active part in inducing the voters of the county to vote these bonds.

The news, as well as the editorial columns, of the Record in issue after issue, urged a favorable vote for the bonds.

The files of our paper show that the reasons given for the voting of the bonds were that the money would be used in aiding the construction of a Federal Highway from Madison County to the Boyle County line; that the Federal Government would pay the larger percent of the cost of construction and that the Federal Government would permanently maintain this highway free of any expense to the County and that by so doing, this being the main road artery of the county and the road that carried the largest percent of the county traffic that the saving from this permanent maintenance by the Federal Government would enable the Fiscal Court to retire the bonds with the funds that would ordinarily be used in maintaining this estimated road of twenty-one miles.

While it may be true that the order calling the election does not set out especially the purpose for which these bonds were voted, it was understood by the Fiscal Court that made the order, and the members of the County Judge, that the bonds were for this specific purpose, and the then County Judge, in order to induce a favorable vote, made a promise that a particular committee should superintend the expenditure of the money. We advised with the draftsman of this order as to its contents. The purpose proposed for the proceeds of the bonds that may be sold are entirely different from the promises made to the tax payers in order to get a favorable vote on this bond issue. It would be impossible to get a correct sentiment of the people of Garrard County and the tax payers in a mass meeting at the Court House. There are six thousand voters at this time and no mass meeting that could be procured at the Court House could give a correct sentiment or the wish of the majority of the tax payers. Would it be fair to procure the favorable vote for a bond issue upon the part of the tax payers of the County for one purpose and then sell a portion of these bonds and use the proceeds for an entirely different purpose. We contend that it will be playing false with the people and deceiving the tax payers to do such a thing. The Fiscal Court should enter an order setting aside the order approving the bond issue and order that no bonds be issued or sold under the former proceeding, and if a bond issue is needed for the rebuilding or repairing the roads a new vote should be taken, and the purposes for which the proceeds of the bonds to be

GARRARD'S ASSESSMENT Raised By Tax Commission, Still Some Lower Than Last Year

Frankfort, Ky., Feb. 12.—Assessment of real and personal property in Kentucky will be little changed from that of 1920 by the process of equalizing the 1921 valuation, on which the State Tax Commission will commence hearings Thursday.

Tentative raises have been made on 106 of the 120 counties, but, even with their raises, seventy-seven of them are below 1920 figures, and a total of \$31,940,213, while twenty-eight, including most of the coal counties, were raised a total of \$37,340,000, putting the tentative assessments of the 106 counties \$5,400,196 above that of 1920.

The tentative equalized assessments are lower than last year's in Boyle, Casey, Garrard and many other counties in the State. However, Boyle county's assessment was raised \$1,500,000; land, \$1,250,000; lots, \$50,000; personally, \$200,000. This is a decrease of \$786,177 from last year. Representative from Boyle are to appear before the State Tax Commission at Frankfort on Saturday, February 25th., to make complaint if the raise is not satisfactory.

Raises made in adjoining counties were as follows:
Marion—Raised \$1,100,000; land, \$900,000; lots, \$150,000; personally, \$50,000. Decrease of \$155,752 from last year.

Washington—Raised \$1,100,000; land, \$900,000; lots, \$150,000; personally, \$50,000. Decrease of \$143,056 from last year.

Mercer—Raised \$1,450,000; land, \$1,250,000; lots, \$100,000; personally, \$100,000. Decrease of \$387,602 from last year.

Garrard—Raised \$2,750,000; land, \$2,500,000; lots, \$100,000; personally, \$150,000. Decrease of \$1,058,255 from last year.

Lincoln—Raised \$1,950,000; land, \$1,750,000; lots, \$100,000; personally, \$100,000. Decrease of \$323,950 from last year.

Casey—Raised \$700,000; land, \$600,000; lots, \$50,000; personally, \$50,000. Decrease of \$148,188 from last year.

Will Protest County's Assessment Raise

The Garrard County Fiscal Court and many of the citizens of the county will go before the State Tax Commission, Saturday, February 25th., to protest against the \$2,750,000 raise in county assessment. It is the unanimous opinion of her entire citizenry that it is an unjust raise and many feel that it should not have gone over the assessment given out by the county tax commissioner.

More Ice For Summer Consumers

We are pleased to note from the minutes of the Chamber of Commerce, which are published in this issue, that Lancaster and community is to be supplied with plenty of ice during the coming summer, at regular rates, Hustin Brothers having contracted with the Richmond Ice Company to supply them with the necessary amount to furnish the heavy demand that has been in the past. This will be a great relief to the public and we hope in some future date that Lancaster will have an ice plant that can supply its own demands, without depending upon our neighbors for this very necessary commodity.

Tax Experts

There will be two government tax experts in Lancaster, Feb. 27th. and 28th., to assist anyone desiring their aid in making out their income tax for the past year.

used clearly and plainly set out to the tax payers. We cannot believe that the present Fiscal Court would favor the issue and sale of these bonds under the order and vote heretofore taken.

It would be unjust and unfair and a plain deception on the part of the officials as we construe the arrangements and promises that procured the former favorable vote.

GEORGE M. PATTERSON Passes Into The Great Beyond

While many knew of the critical illness of George M. Patterson, who was stricken one week ago with a cerebral hemorrhage, none were prepared for his death, which came last night at eleven o'clock, at which time his soul passed to the God who gave it. For thirty years or more he has lived among us and was one of Lancaster's foremost citizens, having during his entire stay here being the L. & N. agent at this place.

Mr. Patterson was a man of generous impulse and never forgot the hospitality that is always evident in a true Kentuckian. His death has brought a bitter cup of sorrow to the lips of friends and relatives. He had borne adversity bravely and enjoyed prosperity quietly. He had filled well the various relations of life, as son, husband, father and friend and filled them well.

Besides a devoted wife he leaves one daughter, Mrs. Russell Crumlin, to mourn his loss, besides a multitude of friends. The sincere sympathy of the community go out to the sorrowing relatives in the loss of this good citizen.

Funeral services will be conducted at his late home on Richmond street, tomorrow, (Friday) afternoon at 3 o'clock. Rev. W. E. Rix will conduct a short service after which the Knight of Pythias lodge will conclude the services, burial being in the Lancaster cemetery.

Buys Town Property

J. A. Lee sold his place on the Poor Ridge pike, containing 25 acres to Sam Kelley for \$6,000. In the trade Mr. Lee gets the Kelley place on Stanford street for \$1,500, and is moving today. Mr. Lee will sell his personality next Saturday, which he is advertising in this issue.

Oppose Tax Exempt Bonds

Gov. Edwin P. Morrow is one of six State executives opposing the proposed constitutional amendment prohibiting issuance of tax exempt securities, according to information placed before the House Ways and Means Committee by Representative Louis McFadden of Pennsylvania.

The Garrard County Red Cross

If there is a man or woman in Garrard county who does not know of the great work that has been done in the world by the American Red Cross and of the good work that has been done by it in Garrard county and is now being done, we have not heard of him or her. That this work should be kept up and disabled soldiers helped wherever possible is the wish of every good citizen irrespective of creed, race or political belief. The Garrard County Chapter has decided that nothing shall be left undone to help the unfortunate. At a mass meeting held at the court house this week the local Chapter was re-organized, adding a number of new members and is in fine shape to carry on the work. The following officers and directors were chosen unanimously at the meeting and it is needless to say that a better committee could not have been selected:

Chairman—Mr. W. O. Goodloe.
Vice Chairman—Mrs. R. E. McRoberts.

Vice Chairman in charge of Junior Red Cross—Mrs. Theo Currey.

Treasurer—Mr. Wm. Miller.

Manager of Membership Committee—Mr. W. A. Farnau.

Directors—Rev. E. B. Bourland, Rev. Price T. Smith, Rev. W. E. Rix, Mrs. W. B. Burton, Mrs. Frank Markshury, Mr. Sam Haselden, Judge G. W. Treadway, Judge Forest Stapp, Mr. T. J. Underwood, Mr. Joe Crisclius, Rev. Lewis N. Thompson, Mr. J. Hogan Ballard, Mr. Thos. S. Pieratt, and Rev. Ramsey.

Notice To Income Tax Payers

I will be in Lancaster from Feb. 27th. to March the 7th. inclusive, to assist those desiring help in making income tax returns for the year 1921. Will charge a reasonable fee for preparing them according to the work. I will not stay after March the 7th., unless there is work enough to justify me to stay longer.

Respectfully,

AGAINST BOND ISSUE Lincoln Farm Bureau Takes Decided Stand

At a meeting the Lincoln County Farm Bureau last Monday, it was unanimously voted that this body should oppose the \$50,000,000 bond issue now before the legislature and petitioned Senator Haselden and Lincoln's representative to vote to table the bill. When the bill was brought up in the house Tuesday, Mr. Jeter, Lincoln's representative voted to table the bill, while Garrard's representative Hon. R. D. McMurtry voted against tabling.

After an all day battle at Frankfort over 29 amendments that had been offered to the bill, the chairman of the Committee on Highways and Public roads and who has been leading the fight against the bill moved to table the bill and the amendments, which if carried, would have defeated the measure so far as the present session is concerned. On the vote being taken, which is generally considered a test of strength on the bill, the motion was defeated, 57 to 35. The detailed vote, refusing to lay the roads bond issue on the table, was as follows:

To table: Bennett, Bickett, Boling, Boyd, Brown, Dixon, Dorsey, Drury, Duffy, Ellis, Mrs. Flanery, Frazier, Gossett, Hadden, Hamilton, Howard, Jeter, Light, Lisle, Minor, S. H. Moore, Payne, Quarles, Saunders, Stewart, Strange, H. V. Thompson, D. D. Thornberry, Toli, Combs, Vest, Walker, Watkins, Wheeler, Willis—35.

Against tabling: Adams, Amos, Bosworth, Bowman, Button, Cary, Chandler, Clark, Cross, Cundiff, Day, Denton, Duncan, Fultz, Green, Gullion, Harvey, Holder, Hopkins, Huntsman, Jennings, Jones, Kelly, Lane, Lawrence, Lewis, May, Meyers, Miller, R. C. Moore, Murrah, Muster, McCaw, McGuire, McMurtry, E. E. Nelson, C. A. Nelson, Newman, O'Donovan, Oney, Park, Pierce, Powell Rice, Scott Simons, Skaggs, G. W. Smith, I. D. Smith, G. P. Thompson, Tinsley, Truesdell, Trumbo, Vanhoose, Waggoner, Wallen, Wicker—57.

Estes

Last Saturday afternoon at 2:15 o'clock, the spirit of Mrs. Emma Adams Estes passed into the Great Beyond, after an illness of only six days of heart trouble. Mrs. Estes was 59 years old and had been a resident of the county practically all her life. She was a consecrated and devout member of the Baptist church and had many warm friends in the city and county where she was well liked for her many good traits of character. Beside her husband, S. H. Estes, she is survived by seven children, Shirley, Harrison, Harvey, Ollie, George, Donald and Lillian. She also leaves four brothers and two sisters, the latter being Mrs. A. B. Brown, of this county and, Mrs. John Kurtz, of Mercer.

Funeral services were conducted at the grave in the Lancaster cemetery, Sunday afternoon, by her pastor, Rev. Wm. E. Rix.

Much sympathy is felt for the bereaved family in the loss of a devoted wife and affectionate and indulgent mother.

This Is Important

Tobacco growers who have been assigned dates for delivery, are urged not to bring their tobacco until the afternoon before the date which has been given them. Many are coming before, and this blocks many and necessitates the wagons standing on the streets most of the day. Watch also for the numbers that are called for the next week and do not call for a date until FRIDAY, after it comes out in the CENTRAL RECORD, of the day before.

John M. Farra, Manager
Leaf Department.

Bridge Alright

The Kentucky river bridge at Camp Nelson was repaired last week, the cause being due to the drainage into the bridge from the road, on the Jessamine side rotting some of the flooring. All this has been remodeled and trucks are now being run over it in safety.

Notice

It is very important that all who hold Bonds of the City of Lancaster, Ky., file a list of same with the City clerk or the Mayor at once. Giving date, number and amount of each bond and the date of maturing.

Thompson

The death of Mrs. Sarah Jane Thompson, age 71 years, which occurred on the morning of Jan. 31st., was a source of sorrow to those who knew her. She passed away at her home on the Danville pike after an illness of several weeks. She is survived by four children, Arthur, James and David Thompson and one daughter, Mrs. Smiley Walker and one sister, Mrs. Joseph Anderson. She was a member of the Baptist church and had been since early youth. She was a true friend and her devotion to those she loved would make a bright chapter in any life. She was a kind and loving mother, and her devotion to the family circle had no limit. May her children cherish her memory as a precious legacy and we faint would say a word for comfort to the stricken ones, we can but let our tears flow in sympathy with them and point them to the home above.—A Friend.

ONE MILLION POUNDS Delivered To Associ- ation Here Since Opening

Ten Cents Average Advanced.

During the ten days that the two local warehouses have been receiving tobacco for the Association, one million pounds have been run over the scales. On this one million pounds and average of ten cents a pound has been advanced to the grower as a partial payment on his crop. This means that \$100,000 have been distributed among the farmers and growers of this and adjoining counties. No small sum, we say, and the farmers are pleased and more pleased each day as the work of the graders progress.

Three hydraulic prizers and one hand prizer are running in full blast and the floors are being cleaned as rapidly as it is unloaded, weighed, and graded. Three of the prizers are handling the tobacco purchased by Liggett and Myers and one prizer the tobacco bought of the association by O'Bryan & Company.

It was being circulated on the floors yesterday that the R. J. Reynolds Company, was on a deal for a large part of the association's holdings, and that all that was "splitting" the trade was that the company was wanting more of the tobacco than the association was willing to let them have at this time.

Some fancy crops have been on the floors this week, Tuesday being banner day for some Lincoln county tobacco. Garrard county seemed to have had the lead yesterday, one especially fine crop of W. T. Sebastian, attracting much attention while being unloaded yesterday afternoon. He will have, it is said, many No. 1's in both A, B, C and D grades. Messrs. Harry Snooks and John Buckley, "circuit riders" for the district, spent yesterday on the floors and were much pleased with the progress of the work here and with the grading of Messrs. Dunlap and Blanks.

Later—Mr. Sebastian received an advance of \$15.81 a hundred on his entire crop of 6,300, which he raised on 5 acres of ground. He is thoroughly pleased with the grading and the advance received.

A. W. King Here

Genial A. W. King, of Danville, well known and well liked by all who know the gentleman, has been on the receiving floors of the Burley Tobacco Growers' Co-operative Association for several days during the past week or more, checking up the grades of tobacco purchased by Liggett and Myers from the association. Mr. King is one of the best judges of the weed in the State and is well thought of by this firm, which he has represented for many years on the loose floors of Danville.

He is highly pleased with the tobacco he is receiving here and says unhesitatingly, that Garrard county's tobacco and her people are the best in the State.

American Legion News

Investigation by Congress of the alleged hanging in the A. E. P. in termed "a farcical hurlieque" by the American Legion at Mineral Wells, Texas. "This abortive investigation is an insult to every loyal American," a resolution reads. "We believe it is time members of the board began devoting their efforts to matters of import instead of indulging in the hearing of unsupported and absurd complaints made by a few obviously disgruntled and irresponsible muck-rakers."

The American Legion Weekly of Feb. 10th, prints an article by an ex-captain in the Signal Corps, quoting General Bullard's order to shoot "on the spot" any person advising surrender during battle, but flatly denying that evidence of any such instance has been sustained.

District schools in Moffat County, Colo., had decided to close their doors for a period of weeks, due to insufficient funds. The American Legion succeeded in raising \$916 to keep them going, taking the stand that "a shortening of the school term or a curtailment of athletic would be a backward step, depriving children of rightful advantages."

Found wiping his auto with an American flag, a man in Tampa, Fla., was questioned by the American Legion. He was pronounced "simply ignorant," and given instruction in how to treat the colors. Hearing of the incident, the man's employer presented the Legion with a large flag.

A complete French village, with a "Hotel de Ville" accomodating 1,000, will be planted at Medicine Parks, Okla., as a recreation center for the American Legion. Posts will build cottages where members may spend their vacation.

Hiring squads of unemployed ex-soldiers, each in charge of an ex-nurse, has been suggested to the American Legion in Toledo, O., as a means of tearing down unsightly election posters.

"Nervous" ex-soldiers present a special problem in hospitalization. Neuro-psychiatric treatment at Government institution is under investigation by the American Legion, and a conference of specialists has been called by the Veterans' Bureau.

John J. Payne, released two years ago from a German prison, is being looked for by the American Legion. His mother, at Newburg, N. Y., has not seen him since Christmas, 1920.

Holding aloft a tin can labelled "For ex-soldiers," a man raised \$9,000 in New York streets. The American Legion learned that ex-soldiers got about \$50 of it—the man got a jail sentence.

Gathered at the call of radical New York labor leaders, 600 unemployed men threatened a tear-gas attack on Fifth Avenue financiers. The American Legion was condemned as a "tool of capitalism," and ex-soldiers present were told they should have kept their Army guns to "force the Government to give them jobs."

Brooding over was horrors continues to wreck the minds of ex-soldiers. The American Legion at Tampa, Fla., reports twelve cases of ex-service men pronounced "incurably insane" since Thanksgiving.

Good standing in the American Legion will be the only security required to float a loan from the Legion's rotating fund for disabled and needy ex-soldiers.

History as taught in public schools prejudices children against foreign countries. Alvin Owsley, head of the American Legion's Americanism commission, told educational authorities at New York.

The Best Joke Bill Of The Legislature

Frankfort, Ky.—Every session of the Kentucky General Assembly must have its joke bill. The best recorded for the present session is that introduced in the Senate by Senator Bannie Tabor, of Carter county, for regulating the use of moonshine stills.

In a record written by Senator Newton Bright, of Newcastle, the Agriculture and State Fair Committee made an unfavorable report on the bill thereby "killing" it. The full text of the Tabor moonshine bill follows:

1. It shall be unlawful from and after passage of this bill to set up or operate any moonshine still or other apparatus which may be used for the making of moonshine intoxicating liquor without first having placed upon said still or other apparatus a "whistle" which shall make a noise which can be heard for at least two miles from which said still is being operated.

2. Each still after complying with the above section, shall between the hours of 1 A. M. and 11 P. M., at each interval of thirty minutes blow the said whistle so that same can be heard by persons who may be in two miles of said still so that said persons can easily find the way to the still.

3. Each still when so equipped as above stated shall in addition provide a roadway or well-beaten path to said still so that persons may reach the said still in safety.

4. Any person, persons or corporation who may violate any of the above sections shall upon conviction be fined not less than \$10 nor more than \$100 for each and every offense and the evidence of any person shall be sufficient to convict.

5. There is hereby created the office of Moonshine Still Inspector in and for every county of this state who shall be elected at the regular election held in each county at the November election each year commencing with the November election, 1922, and it is hereby made the duty of the fiscal court of each county to provide for the payment of said inspector. The said inspector shall see that the above law is enforced.

All acts and parts of acts in conflict herewith are hereby repealed. The committee report follows:

1. That as an act of courtesy, even omitting political necessity, it would devolve upon this body to appoint the author of such bill State Enforcement Officer of Moonshine Stills in Kentucky, not alone to see that they run without interruption; that their siren whistles regularly summon the gentle country folk to mental and physical complacency, but also to sample the product thereof prodigiously and at frequent intervals.

2. That to place upon any citizen an official duty so violently at variance with his aesthetic tastes and habits, might intrigue him from that strictly sober and unimpeachable highway of life—which has been a glowing inspiration to the youth of Carter county, and beckon him down the White Mule Trail into a confusing wilderness of copper worms.

3. That the Senate of the Commonwealth of Kentucky dares not create an office so fraught with tragic possibilities, rather that it were preferable for the seductive whistle of the still to still be still land stay still, than that one, lured by the phantoms of political patronage should shock the dignity of this assemblage with fatuous babbling and bibacious banter.

There is such a thing as can't, but few of the people of this community care to be caught in its company.

Don't worry about the fellow who claims that he can lick anyone in sight. His vision may be limited to kids.

Their many friends join in wishing them happiness thru their married life.

You Can Solder Aluminum.
Aluminum can be soldered—with difficulty. The difficulty lies in the fact the metal oxidizes as soon as exposed to the air; also that the soldering iron is cooled very quickly, because of the great rapidity with which the heat is dissipated.

Elephant's Reflective Powers.
John Burroughs says that while an elephant may not think, he at least reflects. He cites to prove this the fact that the elephant covers himself with mud to keep insects from biting, and uses branches like a fan to brush flies away from him.

To make the surprise complete Mr. Curtis was sent away on an errand, when on his return he was greeted by 23 guests, who came to enjoy the festive occasion with him and wishing him many more such happy birthdays. A good dinner was served. In the center of the table was placed the large birthday cake decorated with tiny red and white candles.

HOUSEWORK IS A BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Lancaster women. Ask your neighbor! Read what Mrs. Hester Gains, Compton St., Lancaster, says: "I have had attacks of kidney trouble that caused my back to ache so I could hardly get around to do my housework. There was a dull, nagging ache across the small of my back that throbbled and pained dreadfully at times. Mornings I was so lame in my back and hips I could hardly stoop over to put my shoes on. My kidneys were irregular and acted too freely and otherwise bothered me. I got Doan's Kidney Pills at McRobert's Drug Store and a short use cured me of the attack. I haven't been troubled with backache since."

Ever Get Bilious? Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous cathartics and washing your bowels with strong, irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

"Peep" and spasmata return and you feel yourself entirely, completely relieved. There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day—more than five million boxes sold every year.

Relief will come just as quickly and with it genuine, lasting benefit. There will be no griping, no cramping pains or doubling stomach ache. Nature's Remedy (NR Tablets) work promptly and thoroughly, but the action is gentle, mild and soothing.

If you're not already doing so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight. If your constipation is stubborn or persistent, continue to take one each night for a week or so. Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day. After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember it is easier and cheaper to keep well than to get well. Just try it.

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

An Invitation Farmers!

These are the months when you have more or less time to kill. Later you will be too busy to think of anything but crops.

Now is an ideal time to look into the merits of the various contrivances for producing larger yields at less expense.

WE INVITE YOU to spend an hour or two with us the next time you are in town. We want to show you in black and white just what others have done with the wonderful new farm implements and machinery we will be featuring this season.

Experts say that there are better days ahead for the farmers. We feel it—we believe it. Talk it over with us and get in on the ground floor. We'll be glad to see you as often as you come. Come any day.

Much of the future progress of a town depends upon the home life of the community.

If the town is divided into business, social, religious and political cliques or groups, with hard and fast lines drawn and each pulling against the others, there is but little opportunity for real progress. The people cannot get together on a common plane of understanding and work. No one faction is willing to accept the leadership of another.

But when a town is comparatively free from paralyzing cliques and jealousies there is great opportunity for advancement. Everybody knows everybody else, each feels to advance suggestions to others, and in turn is willing to receive them.

In this way the best points. But when they attempt to

of every proposition are brought to the surface, and the logical leader to carry a work to completion is easily selected.

The closed mind is the heritage of a town divided against itself. It imbibes but few new thoughts, and those few are centered around the particular clique to which the mind belongs.

The open mind gathers in much food for new thought, and that thought is capable of expansion and development in many ways.

The open mind is the one for this town.

For fifty years or more American capital has been engaged in building railroads, with which to haul our surplus of grain and other products to the sea ports. During that fifty years this surplus has been shipped to foreign countries in foreign ships and the transportation charges went into foreign pockets.

This was good business for the foreign shipping interests.

But now we propose to have a merchant marine ourselves some day, and ship our goods abroad in our own ships, and keep the vast sums of money paid for the transportation charges in American pockets.

Foreign countries don't like this, which is natural.

They object mightily to the creation of an American merchant marine, because it will cripple the earning capacity of their own ships. This is also but natural and to be expected.

tell this country that we have no right to build a merchant marine, as some of them have done, they become presumptuous and must expect to hear a few words of homely truth. What they don't like they can lump.

It is none of their business. We will do as we please.

Conditions were bad in Russia under the autocratic rule of the czars. But the people had bread, and enjoyed life, if but little more.

Then they overthrew and murdered the czar and beggared the nobility and formed a government of the peasant class. They would be free and independent, and all had dreams of sudden wealth.

Now they have not even bread and are starving by the hundreds of thousands.

America is feeding many of them, as usual, but while engaged in this work of the Samaritan we cannot forget that they brought their plight upon themselves.

Mob rule sounds good to the mob only until hunger begins to gnaw.

When the disarmament conference first met in Washington it attracted widespread attention, and scareheads plastered the first pages of the daily press.

Of late days it has been almost forgotten, important as it is, and generally a half column on an inside page was its recognition.

We have too many murders, and holdups, and bank and mail robberies, and divorce scandals and other attractive forms of light amusement to remember anything of a serious nature for long at a time.

Five years from now we will be able to determine whether Mr. Harding's arms conference has elevated him to a plane of greatness, or whether it was simply the beginning of the end of an American president. Any emphatic statement today pro or con, is mere partisanship. Only time can divulge the truth.

An expert predicts that in the year 2,000 this country will have a population of 230,000,000. It may be true, but we are not taking on any bets. Collecting in A. D. 2,000 would be too much of a job for us.

The Cradle Of Knowledge

Our public school is the cradle of knowledge for this town. It might well be termed the incubator of progress and achievement.

Have you been over lately to see how your children are progressing?

Have you paused long enough to let the teachers know that you are interested in the good work they are doing toward the educational and moral advancement of your boy or girl?

Have you given them any encouragement whatever?

If the sheriff, or the mayor, or any other official does a good piece of work we tell him so—just as we roast him if he falls down on his job. He expects both, and gets whichever is coming to him.

If the teacher displeases us in any way we are quick to censure. Sometimes we make a big noise.

But day after day our teachers are doing good work—excellent work—and we take it simply as a matter of course, as something that is coming to us. We neglect to extend the commendation that is their due.

We do not speak for the teachers, but we feel that they would welcome visits from the parents of the community, or

from any interested citizen. Certainly such visits would be pleasing and encouraging to the children.

In a few years the destinies of this community will be in the hands of these children. The greatest heritage we can leave them, the one which will best fit them for meeting the intricate problems of life, is an adequate education.

The public school is the greatest asset of our national life today. It inculcates in the juvenile mind a respect and veneration for all that is upright, just and humane, and paves the pathway of life with knowledge and honorable career.

Recognition is a little thing to give, but its potentialities are great, both as regards the teacher and the pupil.

Why not?

How They Did It.

Some people possess the faculty of "getting next" to almost every good proposition that comes along. This is especially true with regard to anything of exceptional value that is offered by our local merchants. It saves them many dollars in the run of a year.

How do they do it?

They read the ads in every issue of the home paper, never omitting even the small want ads.

Every issue of this paper has something of especial value advertised therein, something that many people would be glad to have.

The persistent ad reader locates these things—and gets them.

Keep your bargain eye on the ads of the home merchant. If he says it is good, or of especial value, you may be sure it is as he states. He cannot afford to misrepresent his goods, even if he so desired. To do so would soon put him out of business.

This paper is always full of good things you need and want. You'll read about them in the ads.

Read up, and pick'em up.

Unfortunate Fire

Mr. Charlie Coulter who lives near Bryantsville and who has many warm friends all over the county, had the misfortune to lose his house and most of the contents by fire last Friday morning. A spark from the chimney falling on the dry roof caused the damage, which was several thousand dollars, with small insurance. Some of the furniture was saved by workmen who were breaking hemp in a field near by and assisted in every way possible.

One should keep his home and contents fully insured with Gaines, who carries nothing but insurance and pays claims promptly. (It.)

Baptist Church News

In the death of Mrs. S. H. Estes last Saturday the Lancaster Baptist Church lost one of its most faithful and devoted members, and we extend to the bereaved family our sincere sympathy in their great sorrow. Her peaceful departure gave abundant evidence of her readiness to go. For her to be absent from the body was to be present with her Lord. "Forever with the Lord. Amen, so let it be. Life from the dead is in that word. 'Tis immortality. (It.) Storms Drug Store.

The Sunday School is forging ahead under the splendid leadership of Brother Gaines, the Superintendent. A Sunday School auto race was launched last Sunday which will no doubt create plenty of wholesome rivalry among the classes to reach the standard of excellence which is required to win the race. Watch this space each week for the winning car. If you are not enlisted in any school at present, now is the time to get on board and help win the race.

The subject for the morning service next Sunday will be "What the Community owes to the Church."

Don't forget the prayer meeting on Wednesday nights at 7:15. Bible study was never more important than it is today. Members are urged and the general public are invited to meet with us for Bible study each week.

Card Of Thanks

From the bottom of our sorrowing hearts and with the deepest and sincerest gratitude, we wish to thank all those kind friends and neighbors for their thoughtfulness and assistance during the illness and after the death of our dear wife and mother. S. H. Estes and family.

Goodbye Boils!

Are you "up to the neck" in blood impurities? S. S. S. is one of the greatest blood-purifiers known. Try it.

S. S. S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.

A boil is a volcano. Your blood is so thick full of poisons that these "boils" erupt into a boil. They'll keep "boiling up" until you destroy them completely by the use of S. S. S., one of the most powerful blood-purifiers known to science. S. S. S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable, light and clear the skin of pimples, boils, blackheads, blackheads, acne, sebum, rash and other skin eruptions, and does it thoroughly. It drives out the blood impurities which cause eruptions, makes the blood rich and pure builds up lost flesh. It helps to manufacture new blood cells—that's one of its secrets. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

Farm And Home News From Over Kentucky

Farm boys and girls of McCreary county are showing an increased interest in junior agricultural club work, according to a report of W. H. Woodward, county agent. More than 150 recently were enrolled in one month to take up some farm or home project for the coming year.

Prospects of raising and developing a beef calf of their own has attracted 35 Warren county farm boys who are now members of a baby beef club organized in that county by County Agent W. H. Rogers and the College of Agriculture. The youngsters will take their animals to a show to be held in Louisville this fall where they will compete with junior beef producers from other counties of the State.

As a result of increased interest in better business methods among Oldham county farmers, 16 of them will keep records and books during the coming year, according to a report from County Agent Gordon H. Nance. They have started the work by taking an inventory of all equipment on their farms.

Livestock and dairy farming as a means of building up soils have been worn out by continuous grain production is receiving more attention from Carlisle county farmers, a report from County Agent H. A. Hensley states. A total of 700 farmers and their wives recently attended a series of meetings held in connection with the movement.

Jackson county farmers and their wives are finding community clubs a valuable means of solving some of the problems of their farms and homes, according to a report of County Agent W. R. Reynolds. More than 30 clubs are holding regular meetings each month.

Improvement of their home orchards is scheduled to receive considerable attention from Lee county farmers during the coming year, a report from County Agent T. H. Jones indicates. Clayton Cloughston, M. M. Estes and G. T. Perkins, will continue demonstrations which they have started to point out the value of certain prescribed orchard practices.

Growing Wheat Successfully Near The Arctic Circle

The Alaska Experiment Stations of the United States Department of Agriculture have demonstrated that it is possible to raise locally a large part of the wheat needed by those who have settled in the Territory. A recent report from the agronomist in charge of the five Alaska stations states that in the summer of 1921 a crop of 3,500 bushels of spring wheat was produced in the vicinity of the Fairbanks Station. Most of this wheat is being ground into flour in a small mill recently installed at Fairbanks. The quantity available will supply the 1,500 people living at or near Fairbanks. This wheat is the product of a selection made from a small sample of grain received from Siberia in 1914. The grain is hard and the flour of excellent quality.

About 1,000 bushels of wheat were produced in the Matanuska Valley in 1921. One field of wheat at the Matanuska Station yielded 40 bushels per acre. At the Rampart Station the varieties of wheat developed from Siberian stock and most of the barley hybrids and oat selections ripened while their parent plants did not fully mature. Farmers in the Tanana Valley produced 3,000 bushels of wheat, 2,000 bushels of oats, and nearly 1,000 bushels of barley. Oats and barley, in addition to wheat, are being grown in very considerable quantities every year in the interior valleys, from seed developed at the Rampart and Fairbanks stations.

The aim of Alaskan agriculture is chiefly to increase local food supplies. The main sources of income for Alaska are mining, fishing, and timber. It has long been the belief of those in charge of Alaskan experiment station work that it is entirely possible to grow food in sufficient amount to supply those engaged in all industrial occupation in the Territory.

Lancaster School Notes.

The usual Tuesday morning program was given by the Freshmen class. The musician of the class, Georgia Moore, took Mrs. Noland's place at the piano and played the march to which the students took their place in chapel.

Adella Walker, president of the class opened the exercise with a short talk. The history of the class, which was written by Margaret Heron and read by Will Ray Arnold was enjoyed by all. Next was a poem, entitled, "Always Saying Don't," read by S. H. Sanders. This enjoyable program was closed with the song, "An Old Fashioned Garden," by all the class.

The program was very interesting and appreciated by all.

Forget—Remember

Forget each kindness that you do,
As soon as you have done it;
Forget the praise that falls to you
The moment that you've won it;
Forget the slander that you hear
Before you can repeat it;
Forget each slight, each spite, each sneer,
Wherever you may meet it.

Remember every kindness done.

To you, what ever its measure;
Remember praise by others won and pass it on with pleasure;
Remember every promise made,
And keep it to the letter;
Remember those who lend you aid
And be a grateful debtor.

The Way Freshmen Feel.

Nobody been in school 'cept us,
Only 'bout zamination time
They always make a fuss,
And holler for the Sophomore's aid
And say, "Please tell us just a line,"
But when it's over—all the same
We're the only ones in the game.

And I got up so soon,
And studied until noon,
But Miss Robinson blazed away,
'Till I just climb down in a little heap.

Seed Test Still A Factor In Increased Corn Yields

Although the past winter weather has been favorable for the proper curing of seed corn, germination tests of the seed before it is planted this spring will be as important as in former years in increasing the corn yields of Kentucky, soils and crops specialists of the College of Agriculture are pointing out to farmers. This testing, which can be done during February and March before the spring work begins, makes it possible for the corn grower to discard weak germinating and dead ears and thereby save from three to four dollars for each dead ear eliminated, the specialists say.

No matter how well corn has been cured, a general test made by taking one or two kernels from a representative number of the ears to be planted will prove good insurance against thin stands caused by poor seed. If such tests are not practically perfect or do not show a high percentage germination for the entire lot of seed, the specialists are recommending individual ear tests to discover those which have low germinating power or are dead.

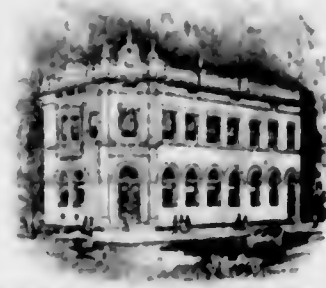

Details of the "rag doll" method of testing, which is said to be one of the most simple and practical, can be obtained from county agents or by writing the Experiment Station at Lexington, Ky.

ARE YOUR CHILDREN EXTRAVAGANT?

To allow a child to become extravagant, no matter how well-off the parents may be, is to seriously interfere with the development of its character.

Extravagance breeds idleness and a lack of appreciation of values. A pampered and over-indulged child can never really experience those joys and pleasures that are the birthright of childhood.

You will not regret it if you require your children to earn their money and then to save a part of it. Teach them thrift. Let them open an account with us. We'll be glad to have them call at any time.

Early Spring Sprayings Control San Jose Scale

During February and March, just before the buds on fruit trees begin to swell, is a good time to go after the San Jose Scale with the spraying outfit, according to suggestions being made to Kentucky farmers and fruit growers by entomologists at the Kentucky Agricultural Experiment Station. Thorough spraying with lime-sulphur from both sides of the tree at this time of the year is recommended by the specialists as an effective means of controlling the pest that annually causes serious injuries to apple, plum, peach and pear trees.

In preparing homemade lime-sulphur, 20 pounds of lime are slacked in a large kettle to which 14 pounds of sulphur are added slowly and thoroughly stirred in with the mixture. Twenty gallons of water are added to this and the entire mixture boiled for an hour after which it is strained through burlap to remove coarse particles. Enough hot water is added to make 40 gallons and the spray is ready for application.

Concentrated lime sulphur purchased on the market is diluted about one part to ten of water for peach, plum and cherry trees and one and one-half parts to ten of water for apple and pear trees.

BURLEY RECEIPTS NOT NEGOTIABLE

Passonneau Says That
If Association Members
Need Money
They Can Get It

From Banks And That Values May
Be Three Times Advanced.

Chief of the Field Service Division Joseph Passonneau, of the Burley Tobacco Growers' Co-operative Association, said that the participation receipts or certificates of the Burley Association are not negotiable and that speculators who attempt to purchase them may lose their investments.

Colonel Passonneau said further that in case the growers really needed money and were compelled to borrow it; they could obtain it from their bankers, with whom arrangements have been made for the growers to get money on their certificates. Colonel Passonneau said:

"Inquiries have come to the Association regarding the negotiability of participation receipts held by members of the Association. They are not negotiable. The Association could not legally accept or recognize endorsements of these receipts. Persons purchasing them probably will lose their investments.

"Arrangements have been made with the bankers of the Burley district, however, whereby loans may be obtained by members from their local banks on their participation receipts. Members will probably realize from the Association on their tobacco at least three times as much as the amount of their first advances.

Bankers realize this, and are, therefore, willing to loan their customers a certain amount, taking their participation receipts in the final returns from the sale of their tobacco, as security.

"The manner in which the banks of the tobacco district are supporting the Association and its membership certainly demonstrates the great interest which the bankers have in the tobacco industry and their splendid confidence in the future of which

the economic prosperity of Kentucky depends upon the success of the tobacco grower. Every farmer in Kentucky should be proud of the bankers of the State.

"Members of the Association should not hypothecate their participation receipts, if they can possibly avoid doing so. If they are forced to borrow money on these receipts from bankers, they should be very conservative in the amount which they request. But if they really have to have money, they should go to their local banks and consult them about it."

Hardin

Salemna, daughter of William and Mary Elizabeth Lasure, was born in Lancaster, Garrard county, Kentucky, Sept. 5, 1833; departed this life, Jan. 6, 1922, aged 89 years, 4 months and one day. She was united in marriage to J. C. Hardin, March 16, 1858.

To this union were born eight children, seven girls and one boy, six of whom preceded her to the Great Beyond. She leaves to mourn her loss, two children yet living, W. O. Hardin and Mrs. Minnie Gross, both of Hettick vicinity, twenty-five grandchildren and twenty great grandchildren besides a host of relatives and friends. She professed hope in Christ in early youth and united with the Christian church at Fairview, Ky., living a constant Christian life until the end. She was always ready and willing to lend a helping hand to those who knew her. She lived in Kentucky until the year 1906 when she moved to Illinois and for a short time lived on a farm near Greenfield but for the last few years has made her home with her son, W. O. Hardin.

Funeral services were conducted by Rev. Roy March after which interment was made in Oakridge cemetery at Greenfield, Ill.

Mother's loving form has left us, And our hearts are sad and sore, But again we hope to meet her When life's journey here is o'er.

Yes, we are lonely, darling mother, And your face we long to see, And some day up in Heaven, We together there shall be.

There to sing the songs of Heaven To our Lord and Saviour King; After life's battles are o'er And death has lost its sting.

NEW MEMBERS

Added To Chamber Of
Commerce

Important Matters Discussed At Last
Meeting

At the regular meeting of the Chamber of Commerce last Friday evening the following directors were present:

L. G. Davidson, A. D. Joseph, W. A. Farnau, C. M. Thompson and G. B. Swinebroad. Also Chairman W. O. Goodlee, E. C. Gaines, publicity committee, Atty. Hayes, Rev. Hudson and Coy Sanders, et al.

New memberships announced A. H. Bastin Co., Tomlinson and Hayes, Forest Stapp, I. W. Manley, Coy Sanders, Charlie Moore, Robt. B. Hagan, M. H. Steenbergen, Joe Price and the Great Southern Refining Company.

The Board of Directors decided to request the presence of all members of the C. of C. at County Judge Treadway's mass meeting in behalf of "New Roads." This meeting is set for 2 P. M. Saturday, Feb. 18th., at the Court House.

The Chamber of Commerce is interested in getting a new Hotel, Bakery and Photo Studio for Lancaster.

The C. of C. also hopes to give its residents an opportunity this season of securing ice at regular rates at all times instead of the uncertain prices, and unsatisfactory delivery.

Mr. Ross Bastin advised the Secretary that a contract had been made with the Richmond Ice Plant, consequently it was not anticipated that Lancaster would experience any shortage for 1922.

If you as a resident of Garrard county are interested in any of these topics do not confine your discussions to the circle about your store keeper's stove, but attend the Chamber of Commerce meetings every Friday night at 7:30.

G. A. Abbott, Secty.

People who say nasty things about other people behind their backs should wait until their victims are close enough to hear and turn around. Then they wouldn't say 'em and this would be a beautiful and loving world.

Resolutions

Since God in His Infinite Wisdom has seen fit to remove from our midst our dearly beloved brother in the Church and Sunday School—David Rankin, we, the members of the men's Bible Class of the Bryantsville Methodist Church deeply deplore his death and feel keenly our great loss as a true citizen, and loyal church member.

Therefore, be it resolved:

1st. That we bow in meek submission to the will of our Heavenly Father, and that we as a class desire to emulate his noble example and worthy character.

2nd. That we extend our sincere sympathy to the bereaved family, and that a copy of these resolutions be sent to the family and a copy be printed in the Lancaster Record.
